ITEM One-Stop Certification

ACTION REQUESTED Action Item

PRESENTED BY Shannon Lewis, SWIB Program Manager

INFORMATION WIOA Part 678 outlines the roles, responsibilities, and establishment of One-Stop systems. WIOA's One-Stop requirements place a greater emphasis on partnerships and strategies necessary to provide services to its customers. In addition, WIOA requires that states use a competitive process to designate a One-Stop Operator for its systems. In order to achieve compliance within the state of Montana, the SWIB will take action on a competitive process in order to select a One-Stop Operator for the State of Montana.

MOTION Motion to approve the One-Stop Operator competitive process.

SYNOPSIS The WIOA Committee will review, comment on, and approve the proposed competitive process designed to comply with WIOA § 678.605.

§ 678.605 How is the One-Stop Operator Selected?

- a) Consistent with paragraphs (b) and (c) of this section, the Local WDB must select the one-stop operator through a competitive process, as required by sec. 121(d)(2)(A) of WIOA, at least once every 4 years. A state may require, or a Local WDB may choose to implement, a competitive selection process more than once every 4 years.
- b) In instances in which a State is conducting the competitive process described in paragraph (a) of this section, the State must follow the same policies and procedures it uses for procurement with non-Federal funds.
- c) All other non-Federal entities, including subrecipients of a State (such as local areas), must use a competitive

process based on local procurement policies and procedures and the principles of competitive procurement in the Uniform Guidance set out at 2 CFR 200.320(f) will be read as “sole source procurement” for the purposes of implementing this section.

- d) Entities must prepare written documentation explaining the determination concerning the nature of the competitive process to be followed in selecting a one-stop operator.

As the State of Montana is a single-area state, and because Montana’s WIOA funding is distributed through MACo District, there is no money associated with being a designated one-stop operator. Because our one-stop operators do not receive funds, the State of Montana does not need to proceed through a formal RFP process, rather we may follow ARM 2.5.603(1).

ARM 2.5.603: SMAL PURCHASES OR LIMITED SOLICITATIONS OF SUPPLIES AND SERVICES

- (1) The division or state agency may procure supplies or services when the total contract value will be \$5,000 or less using a purchase technique that best meets the agency’s needs, including the use of electronic online auctions.

Last, because Montana is a single-area state that operates under a single WDB, rather than local WDB’s, it is seeking a one-stop operator with a statewide presence that meets the one-stop operator criteria as designated under WIOA.
